

As part of an estate liquidation this tower with antennas are being offered. Tri-ex LM354 heavy duty free standing steel tower. Cranks up to 54 feet or nests down to around 24 feet. Heavy duty steel cables on winch with geared transmission for easy cranking and includes special bit to insert into electric drill for motorized cranking. Also includes a Mosley Pro 67c HF beam antenna which has 7 elements that include 3 elements on 40, 20, 17, 15 and 12 meters and 4 elements on 10 meters. Also on the tower are stacked 13 element 2 meter beams and a couple other unidentified vertical antennas. Tower and antennas are now taken down and readily available for hauling away. Includes heavy duty rotor and controller. All proceeds from equipment sales from the estate are donated to a charity specified by the estate. \$3,000 or best offer.
